The successful candidates would report to the Director and will work closely with Ayaan's Research Directors in researching key functions of their topic areas as well as other tasks commensurate with the role.

### Main Responsibilities:

- Conduct research into areas of interest as identified by the Director
- To research, identify and collate data, statistics and information.
- To conduct desktop/ open source research to identify sources and themes.
- Assist with the analysis and presentation of data/information collected where necessary.
- Collate information using questionnaires /interviews where necessary.
- Identify trends and themes from research data/information.

### Person specification:

- Graduate degree or equivalent/other relevant experience
- Experience in research preferably with information/data collection and analysis skills
- Ability to think and critically analyse.
- Excellent English written and verbal communication skills
- Good time management and organization skills
- Ability to work under pressure and prioritise tasks according to daily workload
- Self motivated and ability to work on own after direction.

- Interest in the area of research that they would like to intern for
